

# Titanium

*Cut the same as regular scissors but doing it much better.*

**new**

**lifetime guarantee**

## Titanium hardened blades surface

### Sharpness, lightweight, comfort

Sharp cutting edge enables easy and precise cutting. Soft, non-slip grips give you comfort during long hours of work. Lightweight and ergonomics of scissors support cutting smoothness.

### Maximum resistance

Blades of Titanium scissors are resistant to rust, abrasion and acids. Adhesives, remains of tapes or labels and other residues from the production process do not stick to them. After cutting the blades remain smooth.

### No clearance

Special "anti-relieve" screw prevents loosening of scissors, provides durability of use, guarantees increased pressure surface. Blades cut precisely on the whole length also light, difficult materials.

### Lifetime guarantee

For Titanium scissors we provide a lifetime guarantee. Hologram on the packing ensures that you use the original product.
